## BUKH H238

BUKH SOLAS MARINE DIESEL ENGINE H10 SERIES - 238 HP (175 KW)

This modern, electronically controlled design delivers 238 PS and 152 kg $\cdot$ m of torque from the powerful 10 liter in-line 6 cylinder engine.

The broad flat torque curve proves world-class diesel development and beats performance of competition models.

State-of-the-art fuel management system featuring Electronic Unit Injectors (EUI). The electronic engine control system makes the engine lighter, more quiet and fuel efficient with excellent compact dimensions.

The unique one-piece CGI (Compacted Graphite Iron) cylinder head makes the engine lighter and quieter than conventional heads for more comfort onboard.
